POTENTIAL HEALTH EFFECTS

EYES: Will cause severe eye irritation. Will injure eye tissue if not removed promptly.

SKIN: Brief contact may cause slight irritation with itching and local redness. Prolonged contact may cause mild to moderate local redness and swelling.

INGESTION: May cause severe shock, vasomotor depression, cardiac disturbances or hypocalcemia. This material is corrosive to the gastrointestinal tract and may cause hemorrhagic gastroenteritis. NOTE: The fatal dose for ammonium fluoborate is probably only slightly higher than the 1-4 grams reported for other fluorides.

INHALATION: High vapor concentrations cause irritation to the respiratory tract, experienced as nasal discomfort and discharge, with chest pain and coughing. Headache, nausea, vomiting, dizziness, and drowsiness may occur.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	Wt. %	CAS
Potassium Tetrafluoroborate	< 80	14075-53-7
Ammonium Tetrafluoroborate	< 20	13826-83-0

4. FIRST AID MEASURES

EYES: Remove any contact lenses. Immediately flush eyes with large quantities of water for at least 15 minutes. Get medical attention if irritation or vision problems develop.

SKIN: Immediately wash skin with soap and copious amounts of water. Remove any contaminated clothing. Get medical attention if irritation develops. Wash contaminated clothing before reuse.

INGESTION: Do NOT induce vomiting. If person is conscious, immediately give several glasses of milk, milk of magnesia or other calcium containing liquid, if available. Otherwise, give several glasses of water. Seek immediate medical attention.

INHALATION: Move person to fresh air. If breathing is stopped or is labored, give assisted respiration (e.g. mouth-to-mouth). Supplemental oxygen may be indicated. Seek medical advice if necessary.

SIGNS AND SYMPTOMS OF OVEREXPOSURE

CHRONIC EFFECTS: Long term exposure to inorganic fluorides may cause osseous fluorosis (overabundance of fluorine in bone tissues), kidney damage, asthma, and symptoms resembling rheumatism.

COMMENTS: If victims of chemical over-exposure are taken for medical attention, give a copy of the label or this SDS to the physician/health care professional.

5. FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: Water. Avoid carbonate dry powder because of reactivity.

FIRE FIGHTING PROCEDURES: Move containers from the area of the fire if possible. If not, cool closed containers with water.

FIRE FIGHTING EQUIPMENT: Self contained breathing apparatus and full protective turn-out gear.

HAZARDOUS DECOMPOSITION PRODUCTS: At elevated temperatures, ammonium fluoborate decomposes to form ammonia, hydrogen fluoride, boron trifluoride, and other boron compounds.

6. ACCIDENTAL RELEASE MEASURES

GENERAL PROCEDURES: Avoid raising dust if possible. Sweep, scoop, or vacuum up spilled material and place in containers for later recovery or disposal. Ventilate area and flush residual spill area.

7. HANDLING AND STORAGE

GENERAL PROCEDURES: Store in a cool dry place away from incompatible materials. Keep away from heat, flame, sparks and other sources of ignition. Keep containers closed when not in use.

HANDLING: Do not store or transport in or otherwise use glass containers when handling this material.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

ENGINEERING CONTROLS: Local exhaust may be necessary if working with the product in enclosed areas or at elevated temperatures.

PERSONAL PROTECTIVE EQUIPMENT

EYES AND FACE: Face shield, safety glasses with side shield or chemical splash goggles.

SKIN: Rubber, chemical resistant gloves. When material is heated, wear gloves to protect against thermal burns.

RESPIRATORY: Atmospheric levels should be maintained below the exposure guideline. For most conditions, no respiratory protection should be needed; however, if handling at elevated temperatures and/or without sufficient ventilation, use a NIOSH/MSHA approved air-purifying respirator.

PROTECTIVE CLOTHING: Protective clothing and safety shoes as necessary to minimize contact.

WORK HYGIENIC PRACTICES: Good personal hygiene practices should be used. Wash after any contact, before eating, and at the end of the work period.

OTHER USE PRECAUTIONS: Eye wash station and quick drench safety shower in immediate work area.
