

ULTIMATE LEAD-FREE WAVE SOLDERING SYSTEM

www.qualitek.com

Introducing The New JT NSM - 450 Series

- The NSM – 450 is a third generation wave solder machine, incorporating features from the WS and SM series.
- The NSM has a newly designed cabinet for easy access to all the internal components.
- The machine can incorporate the patented electro-magnetic pump system or standard motor driven pumps.
- Solder pots are easily changed for running dual alloys.
- IBM computer, Windows XP, Siemens PLC, and Panasonic motors are examples of the quality components used.
